## EDUCATION

**Bachelor of Technology in Computer Science - 7.57**  
GLA University - Mathura UP

Aug 2023 - June 2027

**Intermediate Education (PCM) - 87.6%**  
SR Public School - Orai (Jalaun) UP

April 2018 - Jul 2022

## PROJECTS

**LayrdUI - Beautiful UI Templates | Components** Jul 2025 - Present

- Built a modern, component-based UI system using Next.js, TypeScript, and Tailwind CSS for high scalability and reusability.
- Designed responsive and accessible components, optimized for both light and dark modes with seamless theme toggling.
- Focused on clean code architecture, reusability, and SEO optimization to ensure top-tier performance and maintainability.
- Developed a sleek, modular UI library providing ready-to-use templates and components for developers.
- Launched on Peerlist and Product Hunt, achieving strong community engagement and recognition.

**BuyBuddy - An e-commerce platform for buying digital products** Mar 2025 - JUL 2025

- Built using Next.js, TypeScript, and Tailwind CSS, ensuring a fast, responsive, and visually appealing user interface.
- Implemented dynamic product fetching, filtering, and sorting for a smooth and personalized shopping experience.
- Integrated secure authentication and affiliated brand linking to track purchases and manage user sessions efficiently.

**Bloggify - It is a modern, fast, and responsive blog application** Feb 2025 - March 2025

- Built a modern blogging platform using Next.js, TypeScript, and Prisma, enabling users to create, edit, and publish posts seamlessly.
- Designed a rich-text editor with real-time draft saving, formatting tools, and auto-publish functionality for an enhanced writing experience.

---

## ADDITIONAL INFORMATION

- **Technical Skills:** React.js, TailwindCSS , Next.js , Shadcn, GSAP , Framer Motion
- **Achievements:** 1563 contest rating in leetcode , got 200+ visitors on LardUI.
- **Languages :** Java, Typescript , JavaScript , HTML/CSS ,SQL(PostgresSql).
- **Certifications:** JOVAC(Job oriented Value Added Course), College Hackathons
- **Tools & Platforms:** Git , Github , Vercel , NextAuth.
