WORK EXPERIENCE

Founder & Frontend Engineer | 2025 – 2026

LayrdUI

- Built and launched LayrdUI, an UI templates and component library designed for modern web applications.
- Achieved 450+ page views through product launches, developer community engagement, and organic outreach.
- Gained 100+ daily users consistently after the launch day.
- Developed reusable and customizable UI components using Next.js, React, TypeScript, and Tailwind CSS.
- Designed project architecture, documentation, component APIs, and deployment workflows.
- Focused on accessibility, performance optimization, and developer experience.

PROJECTS

May 2025 – Jul 2025

BuyBuddy

- Built a complete e-commerce platform with authentication, product catalog, shopping cart, and order management.
- Implemented secure backend APIs and database models using Prisma ORM and PostgreSQL.

Jan 2025 – Mar 2025

Bloggify | Blogging Platform

- Developed a modern blogging platform supporting content creation, editing, publishing, and management.
- Implemented authentication and protected routes for secure user access.
- Built an intuitive content management workflow for creator.

EDUCATION

GLA University | 2023–2027

B-tech Computer Science | CPI 7.49

SR Public School | 2019–2022

PCM | Percentage 87.6%

SKILLS

- Next.js
- TypeScript & JavaScript
- Tailwind CSS
- Node.js & Express.js
- PostgreSQL
- Prisma ORM
- React
- Java
- Git & GitHub
- UI/UX
- REST APIs
- Problem Solving

ACHIEVEMENTS

- Built and launched LayrdUI, an open-source UI component library, which gained 450+ page views and 100+ daily users consistently after the launch day.
- Secured a LeetCode rating of 1760+ and ranked in the top 10% of LeetCode users globally.
- Solved 500+ Data Structures and Algorithms problems on LeetCode, demonstrating strong problem-solving skills.
- Built and shipped multiple full-stack projects using modern tech stack and best practices.
- Active in open-source and passionate about building developer tools that improve productivity.
- Consistent learner with a focus on clean code, performance optimization, and scalable architecture.
